<b>It has... (Features)</b>	<b>Which means... (Benefits)</b>
A combination of cutting-edge ingredients brought together for the first time...	...nothing else like it exists. All ingredients have been selected using amounts proven effective in clinical studies and have been formulated to work together for maximum results in maintaining healthy blood sugar levels.
An eight-week, placebo-controlled clinical study supporting overall product effectiveness...	...it's proven! As part of a regimen of healthy diet and exercise, test subjects taking four servings daily of GlucAffect significantly lowered blood fasting glucose and experienced substantial weight loss.
Pycnogenol®...	...you receive the benefits of a natural super-anti-oxidant, proven to help lower blood glucose levels, LDL ("bad") cholesterol and blood pressure and improve overall health.
Omega 3 Fish Oils...	...it promotes cardiovascular health and helps maintain optimum blood pressure and cholesterol levels.
Madeglucyl™, Glucohelp™, Silbinol®, salacia extract, alpha lipoic acid and more...	...it contains many advanced ingredients clinically proven to support blood sugar management and neutralize free radicals.
Cinnamon cream flavor...	...you'll enjoy delicious taste along with the added natural blood sugar management support of cinnamon.
Rapid dissolvability...	...it's a perfect addition to your morning coffee, afternoon tea or one of your daily Reliv shakes.
