soy

Reliv Now and ProVantage
now contain LunaRich!

much better!

Receive all of the benefits of lunasin through these two incredible products. Soy's health benefits — from heart health to weight loss — are well-documented. But only recently have scientists uncovered the nutritional component within soy responsible for many of these benefits. Studies now show the key is lunasin, a naturally occurring soy peptide.

LunaRich® is the first soy powder to fully harness the power of this amazing discovery — with more than five times the amount of lunasin found in ordinary soy powders. Not only does LunaRich deliver more lunasin, it also makes that lunasin more bioavailable for the body to use.
